SYNOPSIS

Leiden University's Global Transformations and Governance Challenges (GTGC) Initiative is pleased to announce its third annual conference on the theme of "Emerging Trends in Global Governance" at Leiden University's The Hague Campus on 5-7 June 2024. The conference explores how major world-scale changes (of ecology, economy, geopolitics, migration, pandemics, technology, etc.) are – and can be better – governed. The Hague is home to hundreds of embassies, government agencies, international organizations, NGOs, research institutes and social movements, making it uniquely suited for an interdisciplinary, multistakeholder dialogue. Join us to take part in the academic panels, policy roundtables, receptions, lunches and extensive networking opportunities!
