

Which Internet for which future?

An initiative launched in 2007

(before the present crisis...)

“A global catalyst for change through the identification and analysis of the crucial problems facing humanity and the communication of such problems to the most important public and private decision makers as well as to the general public”

**The world has profoundly changed in the last 50 years
but it should profoundly change too in the next decades**

**In order to avoid major risks of breakdown,
all countries will need to agree sooner or later
on an alternative way forward,
a new concept of progress,
measured through a 'beyond GDP' index**

Societal paradigm shifts are in sight

**It would be paradoxical
to design the Future Internet
without thoroughly exploring
what the future of our societies should be**

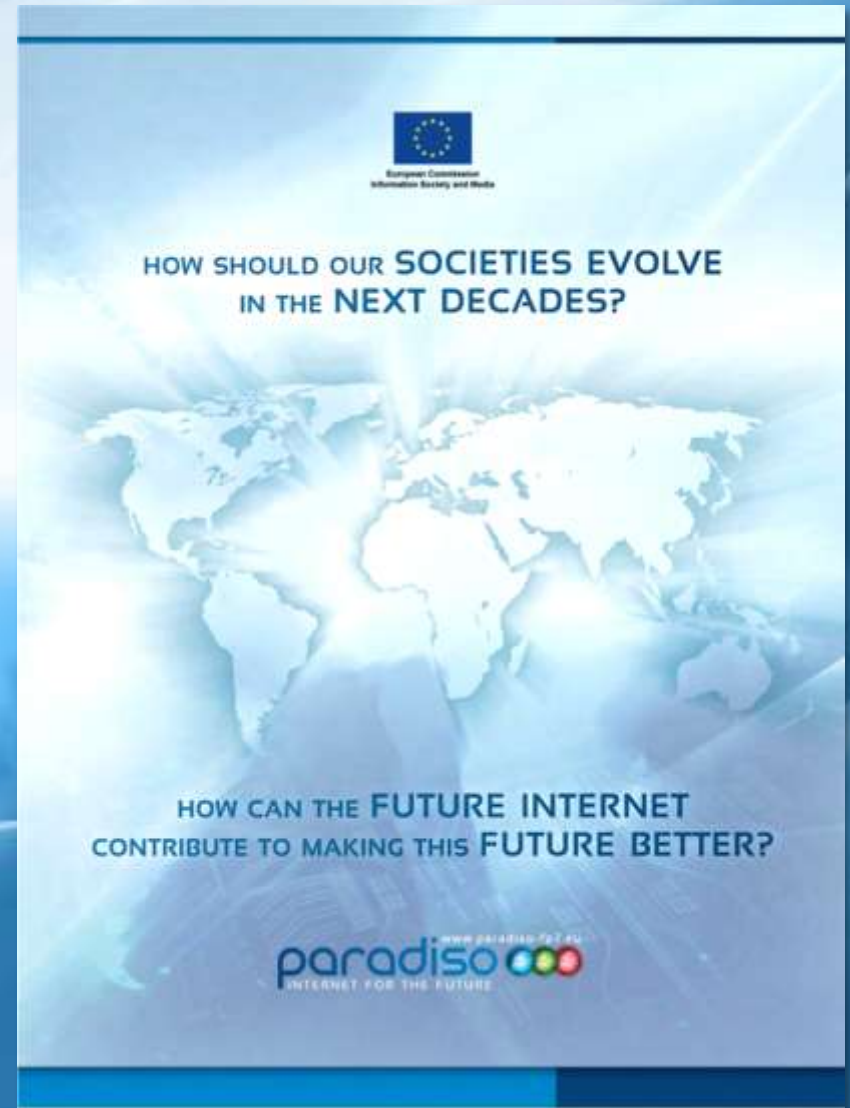

PARADISO focus

*PERSPECTIVES OF SIGNIFICANTLY REVISED
ECONOMIC, ENVIRONMENTAL, AND SOCIAL OBJECTIVES*

*A **SOCIETAL PARADIGM** SHIFT*

AN OBVIOUS REFERENCE TO A BETTER WORLD...
